## Until We Try

I never decide if an idea is good or bad until I try it. So much of what gets in the way of things is thinking we know. And the more that we can remove any baggage we're carrying with us, and just be in the moment, use our ears, and pay attention to what's happening and just listen to the inner voice that directs us, the better.

It's not that outlandish to say linen's popularity reached Biblical proportions. In fact, this fabric predates the Bible and was even woven in ancient Egypt (oh hey, Cleopatra). ## TISSOT KNOW-HOW

### POWERMATIC 80

An automatic watch is powered by the energy of the person who wears it. Wrist movement enables the mechanism to run. The Powermatic 80 movement boasts 80 hours of power reserve, which is enough to continue telling time accurately even if the watch is not worn for three days. It is an innovative movement that outperforms the competition, whose movements general provide 1.5 days of power reserve.

And the more that we can remove any baggage we carrying with us, and just be in the moment, use our ears, and pay attention to what's happening, and just listen to the inner voice that directs us, the better.
